A Message From Kathy:

Activ8 Academy is committed to frequent, two-way communication to ensure meaningful family involvement. Children thrive when the adults in their lives; parents, teachers and community members, are partnering to encourage and support them.

Parent-teacher communication via our weekly newsletters and Class DoJo are intended to provide continual information about your child's academic and social/emotional growth. At it's best, this communication acts a bridge between active family engagement and strong parent partnerships with the school.

While scholar progress is assessed daily through a variety of tasks and observations, Progress Reports are formally shared twice per year. Their purpose is to provide specific feedback and guidance to families, and to support each scholar's opportunity to master grade level standards and achieve his/her learning goals.

Today families are receiving 2nd Semester Progress Reports. We are so excited to see the growth in grade level competencies, personal confidence and attainment of learning goals across the Academy!

"Children are the **Priority**. Change is the **Reality**. Collaboration is the **Strategy**." I love this quote by Judith Billings and think it is most appropriate for the educational mission we are on. The strategy is working as evidenced in the Progress Report's shared today.

If you have any questions regarding the content of your scholar's Progress Report please contact his/her teacher directly.

Thank you for your partnership and the privilege of working with your family.

Blessings,
Kathy | 949-698-3350
