

Weekly wrap-up

March 26, 2021

A Message From Kathy:

It was exciting to share the vision for our new school space and program with current families and prospective new families this week!

We were able to share renderings of our new playground, reading nook and design center along with the intended program we would use in each space.

While physical space is important, without a thoughtful, purposeful program designed for student and teacher engagement, it is just space. Flexible seating classrooms, sensory integration, and interactive learning centers have driven our design process. Engaged learners, innovative curriculum designed for elementary learners complimented by a comprehensive and integrated social/emotional learning makes Activ8 Academy's new home so much more than new space.

Please join us in learning more at one of our upcoming information events...

Open House at Activ8 Learning Center

Tuesday, April 6th, 5:00-7:00pm
1000 Bristol Street N, Suite 18, Newport Beach 92660

Sip, Shop and Learn at Shop Common Thread

Friday, April 9th, 11:00am-1:00pm
369 E 17th St., #20, Costa Mesa, 92627

As valued parent and family partners, you are our best ambassadors. Please invite a friend, neighbor or colleague to join you in attending.

Blessings,
Kathy | 949-698-3350

Survey Says...

4th Grade Scholars finished their novel study of By The Great Horn Spoon, complete with panning for gold as they learned about the Gold Rush and its integral part of California history.

Following the novel study scholars watched the movie of the same title. So we asked...

Did you like the book better, or the movie?

By large majority the book was their favorite!

4th Grade scholar Ryder enjoys a smore as part of the "Great Math Camp Out". Scholars fished to solve addition, subtraction and multiplication facts and did LOTS of problem solving on this epic trip!

"It works-
I'm
drinking!"
